Post-operative Instructions - Arthroscopic Knee Surgery

Keep the dressing clean and dry for 48 hours. You may shower after 2 days.

Apply ice for 20 minutes every 2 hours during the first 3 days.

Use crutches and put only partial weight on the leg for 1 week.

Pain relief: paracetamol 1 g every 6 hours, maximum 4 g per day.

Stitches are removed at the clinic 10 to 14 days after surgery.

Call the surgeon for fever above 38 C, calf pain or increasing redness.
